Featuring  
**RENEWABLE  
ENERGY**  
Pavilion and  
Conference Track

**POWER-GEN India & Central Asia 2010** will be the 9th event in the highly-successful series organised by Inter Ads Limited in association with PennWell Corporation, USA. It is the largest POWER- GEN exhibition outside Europe and North America and provides the ultimate platform for showcasing India's dynamic power to rest of the world. This time POWER-GEN India & Central Asia 2010, will feature a dedicated pavilion for **Renewable Energy**, making it India's only comprehensive energy platform, covering both the conventional and renewable energy segments.

POWER-GEN India & Central Asia 2010 will bring together technocrats, industry leaders and senior government officials from central and state governments as well as eminent experts from overseas, who have wide experience in the field of power and its related sectors.

## International Conference

### Powering the future

**POWER-GEN India & Central Asia 2010** will host a concurrent international conference with its theme as 'Powering the future'. Supported by the Ministry of Power, Government of India, the conference programme addresses the immense challenges of providing power to one of the world's most populous countries. The conference is complemented by the region's largest showcase of products and services displayed by the world's leading power industry manufacturers and suppliers.

The conference programme will feature a technology-based track, which will present the latest technological developments for power generation and examine how they can help India to meet its energy challenge.

This unique conference is renowned throughout the Indian power market as an opportunity to meet market leaders, business associates and prospective clients and plays a vital role in government/industry interaction.
